

JUNE 23—27, 2025

International Partner Days — Change and Challenges

June 23–27, 2025

International Partner Days 2025 University of Bonn

You are warmly invited to the University of Bonn's first International Partner Days of 2025. With a strong track record in research and teaching stretching back over 200 years, the University—one of 11 Universities of Excellence in Germany—has a compelling concept in place for the future. Adopting a transdisciplinary approach in its research, the University of Bonn is exploring and developing answers and solutions to the challenges of today, drawing on an international network and reliable partnerships all over the globe.

The event will be hosted in the city of Bonn, located right on the banks of the Rhine in the heart of Europe. Some years ago, the city that gave us Beethoven successfully transformed itself from a politically minded national capital into a highly competitive center for business. The city's international character is also shaped by the 26 UN institutions that call it home.

GEFÖRDERT VOM

Ministerium für
Kultur und Wissenschaft
des Landes Nordrhein-Westfalen
